

# Maui County Paramedics Association

P.O. Box 911  
Puunene, HI 96784

*Serving Maui County since 1993*

Paramedics, EMTs and by extension the entire Maui community have no better friend than state Senator Roz Baker. Her tireless efforts on behalf of Emergency Medical Services over the past decade have ensured that when a call for help anywhere on the three islands of Maui County is made, the response is fast, professional and at the highest standards of competency.

Senator Baker has been at the forefront of bringing ambulance stations to Lanai, Napili, Wailea, Hana and Kula, and was instrumental in innovations and collaborations that created Maui's emergency medical helicopter, Maui MedEvac, and the new Emergency Medical Rapid Response Unit in Maalaea.

As important, to ensure those resources are properly and professionally staffed she helped establish an educational stipend so Maui men and women can go to paramedic school.

She has also been committed to the statewide Trauma Committee to help people who are severely injured and has worked tirelessly to improve Maui Memorial Medical Center. Her dedication means that people's lives are saved every day throughout Maui County.

In an environment of limited resources, Maui EMS has to compete with the entire State for expanding EMS services. Senator Baker has been a tireless champion in the legislature where those hard decisions are made, ensuring the needs of Maui County are met.

Roz Baker deserves our support so that she can return to the Senate and continue to advocate for the Health of our Maui Ohana.
